

## SUSPECTS BRITAIN IN VLADIVOSTOK COUP

White Russian Paper, Published in Reval, Believes She Planned It.

## JAPAN CARRIED IT OUT

Semenoff Declared to Have Been Bought Body and Soul.

## YELLOW PERIL CRY AGAIN

Japanese Penetration Into China and Russian Pacific Excites Fear.

## Japan Deceiving Britain, Says Moscow Official

**MOSCOW, via Reval, June 18.**—The Bolsheviks are wrong in thinking that England is supporting Japan in the revolutionary disturbances which have occurred recently in Eastern Siberia, Commissary Stekloff declared to The New York Herald correspondent. He said that, as he saw the situation, Japan apparently was deceiving England regarding the Vladivostok revolution, just as the Poles were deceiving her regarding Upper Silesia. He expressed the belief that the French were encouraging the Poles and the Japanese alike.

**Special Cable to THE NEW YORK HERALD.** Copyright, 1921, by THE NEW YORK HERALD. **REVAL, via LONDON, June 17.**—The *Stobodnoto Slovo*, the "White" Russian newspaper published in Reval, in its latest issue suspects England of connivance in the revolution in Vladivostok, but says that certain Japanese, and not Russians, arranged the coup d'état, of which it prints the following proof:

"England drew up the plan and Japan carried it out," it asserts. "The double faced Britannic sphinx recognized the Soviet (entered into a trade pact with Moscow) while planning its overthrow. Meanwhile Japan, who had recognized the Chita Republic, had undertaken to evacuate Siberia. Evidence has arrived here which convinces even the 'Whites' of Japan's undoubted guilt in the revolution."

"Before the revolution small parties of Gen. Semenov's men terrorized Khabarovsk (seat of the general Government of the Amur and capital of the Maritime Province) and other places occupied by the Japanese. The Japanese refrained from suppressing these soldiers and prevented the Chita Government from sending troops to do so. Moreover, a few days before the revolution Semenov was within the Japanese fortress at Port Arthur and was without followers and was utterly discredited. Then suddenly he appeared in great military strength."

"The revolution was entirely Japanese and was accomplished with Japanese bayonets and Japanese money and by Russian reactionaries who long ago were bought body and soul by the extreme jingo wing of the Japanese war party."

"Besides Semenov, the principal Japanese tool, there is Gen. Rozanoff, who was formerly Admiral Kolchak's representative in Vladivostok. He is a brutal extreme reactionary and was distrusted by Gen. Graves, who commanded the American forces in Siberia."

"The published list of members of the new Government in Vladivostok shows they are entirely reactionary. Merkuloff, president of the Council, was head of the reactionary organization and editor of the 'Black Hundred' newspaper *Slovo*."

Semenoff's name has been kept in the background by the Japanese bureau in Vladivostok and by Tokyo, and hence the American and the British public have been deceived. News that Semenov's followers have been arrested by the Japanese is regarded here as so much dust thrown in America's eyes. "White" view is taken by all "White" newspapers. They declare that the action taken by Japan will serve to strengthen the Reds, by driving into the arms of the Moscow Government all the "Whites" who dislike to see Japan seize the Pacific coast of Siberia. The "White" newspapers are raising the cry of the "yellow peril," and point even to America's failure to stem the tide of Japan's peaceful penetration into China which is rapidly becoming a Japanese dependency. They declare that with the fall of the Russian Pacific the great barrier against the yellow races will be down for ever and the rising tide of color will pour into Siberia like a millrace.

## HAYWOOD GETS WARM WELCOME IN MOSCOW

**By the Associated Press.** **MOSCOW, June 18.**—William D. Haywood, secretary-treasurer of the Industrial Workers of the World, who came here from Russia, was given an ovation by a public meeting of the delegates to the Third International of Moscow, says the *Tass* of that city. The audience stood and cheered, the newspaper asserts, when he was introduced as a man over whom a twenty year prison sentence was hanging at home. Haywood told the delegates that formerly oppressed Russians fled to America, but that now American workmen escape to truly free Russia, the *Tass* declares.

**By the Associated Press.** **MADRID, June 18.**—A deputation of Spanish Communist party organizers has gone to Russia to confer with Premier Lenin and War Minister Trotsky. Francisco Cambo will leave for Reval, Estonia, at the beginning of July, should political conditions in Spain permit, for conferences there with Maxim Litvinoff, chief of the Soviet Legation abroad. Afterward, if guarantees can be procured, he will proceed to Petrograd and Moscow to study the Bolshevik organization.

## SPLIT AS TO BOLSHEVISM.

**VLADIVOSTOK, June 18.**—There appears to be a division of views among representatives to the non-Socialist conference here relative to the attitude toward Bolshevism. Some of the delegates are advocating an active struggle against the Communists, while others are favoring a passive attitude. Several of the foreign consuls attended the opening of the conference.

## ALLIED COUNCIL CRIPPLES GERMAN AERO INDUSTRY

Large Orders From Neutral Countries, America and Rumania Cannot Be Filled Under Decision, Says German Aviation Expert.

**Special Cable to THE NEW YORK HERALD.** Copyright, 1921, by THE NEW YORK HERALD. **New York Herald Bureau.** Berlin, June 18.

The news that the Supreme Council proposes to confiscate all German military airplanes, to requisition one-fourth of the commercial planes and to forbid further military airplane construction is arousing anxiety in the German aero industry. Capt. Meyer of the Sablatnig Aero Works declared to The New York Herald correspondent that this decision definitely hindered the filling of large orders from neutral countries, America and Rumania.

Capt. Meyer sees in the reported action by the Supreme Council an enforcement of the May ultimatum of the Allies

which demanded that the Germans suspend the manufacture of airplanes until three months after the fulfillment of the peace terms and provided that the Allies keep control over German production. He admitted it was not to be denied that the Germans have been stupid enough to hide some airplanes from the Allies, but he added that these were rare instances and said that the machines so hidden were now old fashioned and useless. "The present intent of the Allies," he said, "is intended simply to kill German competition."

He said there were 200 German airplanes doing postal and passenger service, but denied the assertion of Andre Michelin, the French tire king, that these could be converted into war planes over night.

## ADMIRAL SMIRNOFF SEEKS NEW REFUGE

Sails on Orduna for Germany, Where He Will Be in Closer Touch With Russia.

Admiral Michael Smirnof, late of the Imperial Russian Navy, who escaped to this country when Kolchak was overthrown and killed fighting the Bolsheviks, sailed yesterday on the Royal Mail steamship Orduna, to find a new haven nearer Russia.

The Admiral, one of the bitterest foes of the Lenin-Trotsky regime, said he would in all probability live in Germany, where he could watch Russian affairs closely, yet not so closely as to place himself in the power of his enemies.

"I believe the day is not very far distant when the real Russian people will come to realize that they are being ruled by a small group of men who are not Russian at all and will overthrow them," he said. "Then I hope to see a Russian come to the front, a big man, to take his place at the head of my country and bring it back to order. Then Russia will again take its place among the great nations. When? I wish I knew."

Admiral Smirnof's sailing was saddened by the loss last Thursday of two of his most prized possessions, the Cross of St. George, given him by the late Czar for courage, and the Cross of St. Michael and St. George. The decorations were stolen by thieves who ransacked his rooms on West Ninety-second street. They also stole clothes and other property.

Another voyager on the Orduna was Dr. W. John Murray, pastor of the Divine Science Church, which meets Sundays in the ballroom of the Waldorf. Dr. Murray will join his wife in Italy, where she has been doing reconstruction work. A number of his church members were at the dock to see him off. Also on the liner were the Rev. P. T. Mignot, an Episcopal clergyman living on the Island of Jersey, in the British Channel, and the Very Rev. Dean Fitzgerald of the Church of the Immaculate Conception, Camden, N. J.

Travelers on the Finland of the Red Star Line, bound for Plymouth, Cherbourg and Antwerp, included Dr. Hans Zinsner, noted bacteriologist; Dr. L. Emmett Holt, child specialist, and Mrs. Holt; Col. E. E. Dravo, U. S. A.; Dr. Tallaferra Clark of the United States Public Health Service, a delegate to the second International Conference on Infant Welfare, at London; Henry R. Carey, secretary of the American Legation at Bucharest, and the Right Hon. J. H. Thomas, M. P.

Other liners sailing were the French liner Rochambeau, for Havre, and the Anchor liner Columbia, for Glasgow.

## FRANCE TO OPERATE SARRE COAL MINES

Government to Take Them Over for a Period of Fifteen Years.

**Special Cable to THE NEW YORK HERALD.** Copyright, 1921, by THE NEW YORK HERALD. **New York Herald Bureau.** Paris, June 18.

The French Chamber has just adopted a bill providing for State administration of the Sarre coal mines for fifteen years, after which the management will be handed over to a private corporation, but under State control.

This is the first attempt to control a great industry and the experiment will be watched with the keenest interest by the world's economists. Before the war the Prussian Government limited the annual production so as not to interfere with the Westphalian mines, but the French Government has decided to mine as much as possible and is estimating that it can increase the pre-war production of 14,000,000 tons to at least 20,000,000 tons.

The State will also organize a profit-sharing scheme and it will enlist the best scientific advisers available to direct the actual operation and division of its Sarre mining undertaking.

## DUTCH CABINET QUILTS OVER ARMY BILL LOSS

Norwegian Ministry Also Reported Resigned.

**LONDON, June 18.**—Official announcement of the resignation of the Dutch Cabinet was given in The Hague today, says a despatch to the *Central News* from the Dutch capital. It is understood the resignation was principally due to the defeat of the main clause in the bill for reorganization of the army.

**CHRISTIANIA, Norway, June 18.**—Former Premier Blehr, now Prefect of Police of Christiania, is endeavoring to form a new Cabinet to succeed that of Premier Halvorsen, which has resigned.

## JAPANESE REOCCUPY TOWNS.

**TOKYO, June 18.**—Reoccupation of Nikolaisk and other points in Northern Siberia by Japanese troops has been completed, according to an official announcement made today.

Early in June Gen. Kamura, commanding Japanese troops in the Vladivostok district, was reported to have announced that in consequence of the way the situation was developing in Eastern Siberia the Japanese would be forced to occupy various Siberian towns of strategic importance.

## GERMANS AND POLES TO LEAVE SILESIA

Insurgents and Volunteers Agree to Begin Their Withdrawal To-day.

**By the Associated Press.**

**BERLIN, June 18.**—An agreement has been reached between the German volunteers in Upper Silesia, the Polish insurgents and the Inter-Allied Commission in Oppeln under which the Germans and Poles will begin a withdrawal tomorrow, it was learned from an inter-allied representative in Upper Silesia who arrived here today. The evacuated territory will be occupied by joint contingents of British, French and other allied troops.

Under the agreement the Germans will begin their withdrawal first, the Poles following before the German movement is concluded. No arms will be surrendered, but all armed forces will leave the territory. In case of their reappearance the British are prepared "to take the most stringent measures to suppress disorders."

Gen. von Hofer, head of the German Volunteers, has given the British explicit promises, and it is believed in Entente circles here that he will keep his word. Complying with the orders of the British military authorities, the Germans have evacuated the villages of Kaltwasser, Klutschau and Olchowa. The Poles have occupied positions to the south of the Ratibor district.

Seven motorloads of French troops have gone to Schichewitz.

A Warsaw despatch given out in New York Friday by the Polish Bureau of Information said that military operations in Upper Silesia had ceased along the whole front, the Polish insurgents having retired in order to permit allied troops to occupy the zone between the Germans and the Polish insurgents. A previous despatch made public by the bureau stated that Adelbert Korfanty, Polish insurgent leader, had signed an agreement with the Inter-Allied Commission at Oppeln, under which he consented to retire and demobilize his troops. The Berlin despatch indicates that the Germans now have also signed the agreement.

## CHARLES PLANS NEW DASH INTO HUNGARY

Due in Budapest August 20, Reports Say.

**By the Associated Press.** **VIENNA, June 17.**—Rumors recently in circulation that former Emperor Charles intends to return to Hungary now are published by a number of newspapers, which fix the date of his arrival in Budapest as August 20.

According to the *Tiroler Anzeiger* of Innsbruck, the Hungarian Premier, Count Bethlen, recently informed the Swiss Government that Hungary regarded Charles as its legitimate ruler, temporarily absent. After the notification, the newspaper says, the status of Charles was changed and he was treated by Switzerland as a distinguished guest, permitted to receive code messages and to communicate with the Swiss Government through a special diplomatic officer.

**INTERLAKEN, Switzerland, June 18.**—Tyrolean and German despatches reporting that former Emperor Charles of Hungary had been recognized in Switzerland as the Hungarian ruler and had been granted the right of communicating in code with the Swiss Government were declared here today to be absolutely without foundation.

Charles, it was stated, is regarded officially as a private citizen and his refraining from any political activity was expressly stated as the first condition of his being permitted to reside in Switzerland.

## CRANE IN PEDLER'S ROLE LEAVES CHINA

Retiring Envoy Stocks Car With Goods to Pay His Way.

**By the Associated Press.** **PEKING, June 18.**—Charles R. Crane, retiring American Minister to China, has left this city for America, travelling by the way of Siberia and Russia. He is accompanied by his son, John, and the two are travelling on a special car stocked with nails, needles, tooth brushes and medicines, which will be used en route in lieu of currency.

Although Mr. Crane did not receive direct permission from Moscow to cross Siberia and Russia, he was unofficially assured the Soviet officials would expedite his journey. When he left on Thursday he expected everything would be arranged when he arrived at Chita, to which city he was accompanied by Capt. Walter S. Drysdale, Military Attache at the legation here. Albert B. Ruddock, First Secretary, will have charge of the legation pending the arrival of Dr. Jacob Gould Schurman, the new Minister.

IT IS not by chance that so many notable families have chosen Kensico. It is because of careful comparison. Kensico is PERMANENT—It will not suffer the fate of our long forgotten city cemeteries.

Write for "The Passing of our City Cemeteries" and photos of Kensico.

Like the Pyramids The Kensico Cemetery Will Endure Forever.
